HIPAA Notice of Privacy Practices

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review the following carefully.

The Health Insurance Portability & Accountability Act of 1996 (HIPAA) is a federal program that requires that all medical records and other individually identifiable health information used or disclosed by us in any form, whether electronically, on paper, or orally, are kept properly confidential. The Act gives you, the patient, significant new rights to understand and control how your information is used. HIPAA provides penalties for covered entities that misuse personal health information.

As required by HIPAA, we have prepared this explanation of how we are required to maintain the privacy of your health information and how we may use and disclose your health information.

We may use and disclose your medical records for several purposes, including treatment, payment, defense of legal matters, to family and friends, and health care operations:

- Treatment includes providing, coordinating, and/or managing health care related services by one or more health care providers. An example of this would include teeth cleaning services.
- Payment includes such activities as obtaining reimbursement for services, confirming coverage, billing or collection activities, and utilization review. An example of this would be sending a claim for your visit to your insurance company for payment.
- Health care operations include the business aspects of running our practice, such as conducting quality assessment and improvement activities, auditing functions, cost-management analysis, and customer service. An example would be an internal quality assessment review. We may also create and distribute de-identified health information by removing all references to individually identifiable information.
- To Your Family and Friends: We may disclose your health information to a family member, friend, or other person to the extent necessary to help with your healthcare or with payment for your healthcare. Before we disclose your health information to these people, we will provide you with an opportunity to object to our use or disclosure. If you are not present, or in the event of your incapacity or an emergency, we will disclose your medical information based on our professional judgment of whether the disclosure would be in your best interest. We may use our professional judgment and our experience with common practice to make reasonable inferences of your best interest in allowing a person to pick up filled prescriptions, medical supplies, X-rays, or other similar forms of health information. We may use or disclose information about you to notify or assist in notifying a person involved in your care, of your location and general condition.

Oral Cancer Screening Form

Our dental practice continually looks for advances to ensure that we are providing the optimum level of oral healthcare to our patients. We are concerned about oral cancer and look for it in every patient.

One American dies every hour from oral cancer. Late detection of oral cancer is the primary cause of increasing incidence and mortality rates of oral cancer. As with most cancers, age is the primary risk factor for oral cancer. Tobacco and alcohol use are other major predisposing risk factors, but more than 25% of oral cancer victims have no such lifestyle risk factors. Studies also suggest that human papillomavirus (HPV 16/18) plays a role in more than 20% of oral cancer cases. Oral cancer risk by patient profile is as follows:

- **INCREASED RISK:** Patients age 18-39, sexually active patients (HPV 16/18)
- **HIGH RISK:** Patients age 40 and older, tobacco users (ages 18-39, any type within 10 years)
- **HIGHEST RISK:** Patients age 40 and older with lifestyle risk factors (tobacco and/or alcohol use); previous history of oral cancer

Please select one:

YES - I would like to have the oral cancer exam.

NO - I would prefer not to have the oral cancer exam at this time.
